

## Melon-Gin Cocktail

### Ingredients

|                       |                                |
|-----------------------|--------------------------------|
| 1 <sup>1/2</sup> Cups | Watermelon<br>(Seedless) Juice |
| 1 Cup                 | Gin                            |
| Lemon/Lime            | Juice of                       |
|                       | Ice                            |

### Preparation

Cut the Watermelon flesh into cubes small enough to fit into a blender or juice extractor. Measure the juice, pour the Gin and Lemon/Lime juice into a glass jug and put aside in a freezer for about an hour.

Check temperature to suit, add some ice and enjoy.
